Attached are content for 3 pages, 4th page would be without content

For FAQs page, you can follow any of the methods being followed in the sites mentioned: (notable part: plus / arrow option on click to display the answers).

https://www.netzerocompany.com/pages/faqs

https://ecoternatives.co/pages/affordability

https://ecogirlshop.com/frequently-asked-questions/

But pls present proper breakdown of categories and its parts)

Here are 2 main categories:

1. Vendors Knowledge Base

2. About Us & Products

Under 'About Us & Products' there are few sub-categories like:

a>Registration & Account

b>Orders & Refunds

c>Shipping

d>Return

So please arrange the folow accordingly.

----

here is the url format to follow for each page:

http://buyeco.com/faqs

http://buyeco.com/privacy-policy

http://buyeco.com/shipping-policy

http://buyeco.com/press (no content for now, just create it)

----

linking instruction:

Add links (with text) to these pages under footer menu (under 'Information' tab. The texts would be like FAQs, Privacy Policy, Shipping Policy, Press. And please remove 'Our Brands' text and link from there. we no more need that page.

----

* Create sitemap.xml file on site

* Add Google Tag manager code on every page at header tag. Code is attached in a file.
